## Integral logistics provider

Nordlogway is a **3PL logistics provider** with **warehouses located in the Barcelona** Province with **more than 70 years of experience** focused on offering the service of supply chain management outsourcing to the clients. **We integrate** electronically with our clients offering integral solutions in the logistics.

In the Osona county (next to the C-25 road) and in Vallès (next to the AP-7 motorway) we own warehouses connected ideally with the main transport routes towards France, the rest of the Peninsula and with the Barcelona Port and Airport. Moreover, **Nordlogway has logistics facilities specialised by sectors**, a qualified human team and a large network of highly reliable partners.

Our logistics **warehouses are equipped with the latest technology** offering the maximum security of goods and operations.

Nordlogway has **ISO 9001, ISO 14001** and also **Ecovadis, Resipack** (permit/certification for human food storage) and **Sandax** certification (permit for animal food storage).

**We own 40.000 m<sup>2</sup> located in strategic points in the second and the third ring road of the metropolitan area of Barcelona.**

## CHEMICAL STORAGE

Nordlogway owns a **warehouse with a Chemical Storage certification** (for inflammable fuel and corrosives), and a **fleet of vehicles with ADR certification**. This allows us to give a complete service to the clients, regardless of the type of goods.

We count with **certification necessary for transport and management of chemical products guaranteeing** our clients total security during their storage, handling and transport.

## INVERSE LOGISTICS

Clients leave in Nordlogway hands **returns management, property, goods or materials return to their final destination or wherever it is required**. Moreover, this process includes goods collecting in their point of origin, verification and relocation to the requested point.

This service can be contracted individually or as part of an integral logistics service.

Return campaigns by retailers.

## E-LOGÍSTICA

Logistics services **specialised in e-commerce projects** which incorporate all the processes of reception, storage, picking, packaging and so on.

With the possibility of integration of your online shop and offering maximum safety and technology through our highly innovative warehouses.

We have our ERP which allows us to manage entries and exits from warehouses or programme shipping from the clients' area of our web.
